Bretagne International is a non-profit association of private companies located in Western France. With 80 representatives in over 70 countries, Bretagne International is present all over the world. It has been given two missions by the Regional Government of Bretagne:

> to identify projects of investment in Bretagne and to support foreign companies planning to invest in Bretagne
We assist foreign investors through the different stages of their project to create or acquire a company or to extend an already existing site, in complete confidentiality: data collection, identification of and introduction to potential partners, proposals of geographical sites, assistance before, during and after the installation…

> to assist Breton companies in their international development
We offer a made to measure assistance to Breton companies. We propose a service contract meeting their objectives and help them find a partner abroad that best suits their project: export, sourcing, partnership, creation of a subsidiary… We organise and federate the participation of Breton companies at international trade fairs. We also organise exploratory business trips in order to benefit from experiences in other countries.

Bretagne Internacional es una asociación de empresarios bretones situada en el Oeste de Francia presente en el mundo entero a través de su red de 80 correspondientes en más de 70 países. El Consejo Regional de Bretagne le ha confiado dos misiones:

> Identificar y acompañar los proyectos de inversiones extranjeras en la región
Acompañamos a los inversores extranjeros con absoluta confidencialidad y gratuitamente durante sus trámites, proporcionando toda información sobre las condiciones de acogimiento, la identificación y presentación de socios potenciales, los emplazamientos posibles. Le aseguramos un total apoyo antes, durante y tras su implantación…

> Apoyar las empresas bretonas en su desarrollo internacional
Proporcionamos una ayuda personalizada a las empresas: montamos con ellas el proyecto que corresponde a sus objetivos e identificamos el socio local más adaptado: exportación, cooperación, abastecimiento, filial… Organizamos y federamos la presencia de empresas bretonas sobre ferias internacionales o misiones especiales que permiten a los empresarios descubrir habilidades extranjeras en un sector preciso.

### VISITOR

CEVA                            | 29    |
ACTIV’INSIDE develops 100% full natural Active Concepts with Health Claims according to EC1924/2006 Regulation, including marketing tools for B to C communication (tradition, history of uses, ethical, organic).

First extracts developed give substantial innovation for preservation of nervous and muscular equilibrium.
InSea\textsuperscript{2\textregistered}, launched in May 2010, reduces glycemic index & improves insulin sensitivity.

InSea\textsuperscript{2\textregistered} is the solution for new weight management dietary supplements.

Art. 13.5 Health Claim application submitted to EFSA mid-2010, supported by a relevant clinical study.

Smart regulatory strategy allows you to use the health claim right now!

Come & see us.

Looking for exclusive distributors in some European countries.
CAPSULÆ develops practical and cost-effective solutions for its industrial partners (food & nutrition, feed & animal health care, agriculture & environment, personal & consumer care). Those solutions facilitate the use and optimize the performances of active ingredients and compounds, via microencapsulation (unique pluritechnological expertise acquired through 20 years of international collaborations).
CBB DÉVELOPPEMENT is a specialist in the use of biotechnologies and fine chemistry for the development of new ingredients.

We provide research and consulting services: technological survey, products development, lab scale trials, molecules qualification, partner searches ...

At HIE 2010, CBB DÉVELOPPEMENT will promote the biotechnologies know-how of Bretagne:

- MIS 2011 4th Symposium on Health Molecules and Ingredients.
- The ingredient sector of the French cluster VALORIAL.
The CRITT Santé Bretagne assists companies and laboratories in Bretagne with their development on health markets. We can help with the following assignments:

- Providing technological support to adapt innovations to medical requirements in accordance with regulatory standards.
- Accompanying project initiators, providing project management know-how and facilitating access to public funding.
- Developing partnerships in fields of industrial property.

CRITT Santé Bretagne’s fields of expertise: Medical devices and health technologies, Drug development and new therapies, Nutrition for human health, Biotechnologies.
Didier HAURET, a winegrower based in Anjou, has created FLAVANJOU ORGANIC to extract value from organic grapes by using the health and wellbeing properties associated to their polyphenols. He markets a range of ingredients for industrials, but has also his own business lines of cosmetics, dietary supplements and functional foods: DIONYCOS and DIONYSOX.
